► **Story combined with nature facts in collaboration with Germany's largest environmental association**

Arthur and Agathe, the cheerful blackbird couple, experience little adventures throughout the seasons and get to know many native birds. Between the charming stories, Rudi Rotbein provides valuable tips for bird-friendly gardens and bird protection. With additional information from NABU, the book is a wonderful companion for young bird lovers who are curious about nature.

*Let's go outside – this has been Nicole Jüngling's motto since early childhood. She discovered her love for birds during a year-long stay at the Helgoland Bird Observatory. The biologist then worked for many years as a seabird researcher on the North Sea and Baltic Sea. Today she works as a nature educator and conservation area manager at a Nature Conservation Centre. She also trains nature educators and is the volunteer leader of a NABU children's group. This allows her to pass on her knowledge and fascination with nature to many people and raise awareness of the need for nature conservation – a matter close to the author's heart.*

## ► The award-winning fantasy adventure as a Graphic Novel

At the northern shore of Andor, a boat runs ashore – in it a man with no memories. Only his name has remained: Varkur. The young fisherwoman Ranja finds him and nurses him back to health. But in the village the fear of the peculiar stranger grows. Accompanied by Ranja, Varkur flees to finally find answers. His journey turns into an inner battle between good and evil, between love and power. The well-known comic illustrator Timo Grubing has ingeniously illustrated Varkur's previously untold story: See Andor's evil magician and his story of how he became what he is now in a new light.

## Meet The Three ??? – an investigative team of 3 boys: Justus, Peter, and Bob.

Set in Rocky Beach, Southern California, they solve mysterious and exciting cases. Often with the help of the local police they find a solution, when no one else can. Author Robert Arthur created the series in the US in the 1960's under the editorship of Alfred Hitchcock.

While the series came to an end in the US after only 50 volumes we in Germany decided to continue with the brand and thus started one of the biggest success stories in German children's literature...

To this day we publish 6 volumes each year, as well as special editions, and calendars. Together with the ever-present audio dramas by Sony it has become a #1 top of mind brand.
