Cards

The origins of Tarot cards are shrouded in mystery. Some link them to the ancient Egyptians, others see them as influenced by Eastern games. However, it is more likely that they originated in the Middle Ages, linked to the Art of Memory, and that during the Renaissance they acquired an esoteric meaning as tools for meditation. It was not until the end of the 18th century that they began to be used for divination, thanks to figures such as Jean-Baptiste Alliette and Court de Gébelin, who linked them to the esoteric wisdom of Egypt. In the 20th century, with the renaissance of New Age culture, Tarot cards also became tools for introspection and personal growth. Today, they continue to fascinate, evolving in response to cultural and spiritual changes, remaining a powerful tool for exploring oneself and one's path.

Through the myths, beliefs, and legends represented by each tree and arcane, the Tarot of the Forest accompanies us on a journey of discovery — of ourselves and our potential, of the world around us, and of the energies that animate it. Each stage also transforms us through the awareness that we are not outside of Mother Earth, but part of her. And so, wherever we are in the world, we can, like a tree, remain firmly rooted while stretching our branches toward the sky. Trees have no voice, yet they are able to call to us — to exchange energy, strength, and knowledge with us.

60 SILVER WINGS TO FLY BEYOND THE RAINBOW

1. PEACE

Be at peace with yourself, find the peace that lies within you and transmit it to those around you. This is the first step towards creating peace in the world. To find peace within you, all you need is to know that you are perfect as you are and that there is nothing you have to do to be otherwise; you are already everything.

22. DECISION

At each moment you are making a choice. With every thought, word and deed you are creating your existence. Be aware of this and for every decision you must take, ask to be guided towards the highest good for yourself and others. In this way, you will be able to advance calmly and serenely knowing that everything is for the best and is perfect as it is.

3. FREEDOM

You long so much for freedom but do not know how to obtain it. To be free, all you have to do is to choose to be so. With every decision you take, however great or small it may be, you can choose the path of fear or Love - freedom is a choice.

Painting by Adriano Vignando

4. GROWTH

You are growing like a tiny flower, the seeds of Love have been planted in your heart but they need to be constantly watered with Light and Affection to be able to blossom in all their splendour. Be kind with yourself and take care of every aspect of your being so that your growth will be flourishing and complete.

5. GRATITUDE

Gratitude is a feeling that rises from the depths of your soul - it has no expectations but simply accepts what has been given as perfect. Welcome every day with gratitude in your heart for all that it has in store for you, in whatever form it may be, because it is always a gift and has something precious to offer you.

Painting by Adriano Vignando

6. TRUST

Trust yourself. Trusting yourself means recognizing your divinity which means being aware that you are everything and can do anything. There is nothing that you cannot be or do, you are complete and perfect and need nothing outside of yourself.

7. PATIENCE

Be patient and everything will come to completion. Patience involves the awareness that everything has its time and a perfect order and therefore every event takes place at the right moment. When you are patient there is nothing to wait for.

8. CHANGE

Let yourself be carried by the wind of change like a leaf that is lifted lightly and joyously without worrying where it is going to fall. Life is movement, let yourself flow with it without opposition or resistance and explore each new path that comes your way, it may lead you to the threshold of your dreams.

9. ACCEPTANCE

What is the key to opening the door to serenity? I accept, I accept myself, just as I am and at the point at which I am, I accept my weaknesses and every part of me that does not correspond to my idea of perfection. I am perfect as I am and this awareness gives me the strength to grow in my perfection.

Cards

We are nature. We are air and water, salt and earth, fire and animal. We are the plants we eat that give us air, fragrance and health. We humans are a part of nature aware of itself, but we are so convinced of being separated from the Whole that we become unaware of what unites us to the world.

The animals, the plants, the stones, the earth, the water, the stars remind us what we are, what we were and what we will return to be after this brief earthly adventure.

THE POWER OF SYMBOLS, SACRED IMAGES FOR MEDITATION AND DIVINATION

by Stefano Fusi - Drawings by Stefano Fusi

CARD DECK

Symbols are the signs that reveal and perpetuate the unlimited universe in our world and in our common life. They reveal meanings beyond those obvious to the senses and to our rational sphere. They exist before we can imagine or think about them: like genes and DNA on the physical plane, symbols pre-exist us, they carry with them the original instructions of life. They exist in nature and we have then encoded them to express in perceptible and comprehensible forms the essential forces that structure existence since the beginning. They are a synthetic map of the motions of what we call energy.

NAIADIS® LIGHT CARDS

CARD DECK

Visual of Cards a Few Examples - 15 messages for each element for a total of 60

Il Fuoco che è dentro di Te è una piccola fiammella che ha bisogno di essere alimentata. Solo piano piano, ma con interesse, e osserva come il fuoco divampa sempre di più...

Si sta preparando un incontro con un'Anima determinata, che accende in Te la passione. Un fuoco che si rivelerà grandioso e ti condurrà in terreni fertili.

Porta avanti il tuo Progetto compiendo un passo per volta, senza perdere la pazienza. Se le cose non rispondono immediatamente i tuoi piani, prosegui nella Fede.

La tua Fede non deve essere debole, ma Forte e divampare come un grosso incendio inarrestabile.

La Passione per ogni obiettivo che si vuole raggiungere brucia dentro come un Fuoco, ma l'impaccio di volerli a tutti i costi entrare e, come un drago, far uscire il fuoco dalla gola non porta al vero compimento.

Ogni piano dovrebbe un passo illuminato, empatico, leggero, che nella quiete, si porta verso l'obiettivo, ti accompagna al successo senza l'ansietà del fine.

Ringrazia il Cielo per il cammino che hai compiuto lascia che la Tua Luce riempiendo in ogni caso che fa e in qualsiasi luogo Tu ti trovi.

Proprio come le fiamme un raggio di Fuoco che illumina e scalda, invada questo luogo.

Accendi la passione dentro di Te come un fuoco che brucia per diventare un incendio. Ascolta le tue emozioni - sono calde e infuocate come tizzoni che divampano fino ad arrivare alla mente, che comincia a rilassarsi e a vedere con facilità.

Più ti fai guidare dalla Passione e più sarai aperto alla vita senza forzature, senza lente.

Che tu da questo istante possa essere un fiume che scorre lento, assaporando tutte le meraviglie del paesaggio che incontri e affondamenti di ruscello per alimentarti trasportando creatura, ricchezza, e vita fino al Mare.

Se chiamata ad Abitare il Mare i suoi spazi in un modo di parlare, ogni giorno ti prepara un umore diverso, proprio come castro e Te. Ascolta e approfondisci la tua conoscenza grazie a questi strumenti.

Le pagine dell'Anima sono tutti un'ora che si aprono e chi più dentro di te e invitato ad avere una vibrazione diversa più alta e di facile ascolto.

Sono proprio come l'acqua di un ruscello che scorre lenta e silenziosa, ma costante.

Il tuo corso ti condurrà di ritrovare i verticiamente della Fonte che è dentro di Te, dove puoi trovare conforto e risposte ogni attimo della Tua Vita.

Comunque ti guardi, quelli che sono in Te un grande volto.

Maestro dell'acqua, il tuo elemento. Conosci il tuo elemento di essere un canale di acqua, dove tutto scorre misurato, ure, piogge, ma tutto proiettato e sentito attentamente nella forza, nella chiarezza e nella.

Non farti sfuggire un secondo di ciò che vivi, perché fosse un gesto, una carezza, uno sguardo, un momento ad una nota, ingranza il tutto dentro di Te, è quello il combattimento.

Il corso delle emozioni che attraversano il movimento del Mare, dentro e viene a volte arriva piano, a volte più forte che mai, quasi da non poterla affrontare.

Ma la forza che ti muove dentro e proiettata in questa emozione ad è proprio quella forza che ti fa rinascere ogni volta e vedere anche dove all'occhio umano non è l'emozione di vedere.

Fermati a guardare il Cielo e il Sole che fa capolino dietro le Nuvole. Tutto gira si riscalda prendendo una sua forma. Osserva tutti quegli spazi vuoti dove poter "creare". Senza fretta abbandonati alla fantasia. È il tuo momento.

Nel Cielo la luna piena, con i suoi misteri e la sua luce splendente, preannuncia l'arrivo di nuove creature divine. Apri le braccia per accoglierle.

Se guardi il Cielo sembra che ci sia una mano con un pennello che disegna le Nuvole, il giallo e il coccodrillo, il coccodrillo, gli aerei, le loro sagome, immagini di essere suoi pennelli di spazzati nelle mani di quel Grande Regista per essere un suo elemento nel disegnare la più Bella Favola di Vita.

Straggersi non serve a niente, pensare di non avere vie d'uscita è limitante. Guarda le tue qualità, prendi confidenza con esse, allenati ogni giorno a portarle sempre di più alla luce. Respira la tua grandezza. Ossigenati di Aria Nuova.

Sentiti libero di volare in Alto. Apri le braccia nel Cielo e respira la tua Forza, il tuo Coraggio, il tuo Potenziale, solo libero, come se avessi due ali e, ogni volta che vuoi, scendi per affondarti alle falde più care che ti sorridono. Finalmente libero di Respirare Aria pulita e di cancellare gli schemi che ti eri costruita.

Adattati alle situazioni senza intaccare la tua posizione fissa, emotiva, psicologica. Rimani ferma, tranquillo, in una condizione di crescita evolutiva e di riguardo rispetto a ciò che ti queri momento percepisci su tutti i livelli, come Aria che entra ed esce dal corpo.

Cominciare con Amore... e saper ascoltare con gioia i primi germogli romanzando e a guardare la Meraviglia della vita. E poi stupore vedere dove i sogni entrano.

Ma dal mattino la buola ricomincia a girare in un cerchio d'Amore. Un sorriso per ogni giorno apre un sipario di cielo al Nuovo Orizzonte e ti stupisce improvvisabile della Madre Terra.

La Madre Terra ha permesso di respirare il sereno... sta a te curarlo e proteggerlo e a essere la sua natura.

Ritorna meditazione ed energia per prendere decisioni che da tempo stai considerando. Respira, cerca l'instinto con la Madre Terra e recita con fermezza e fermezza la "soluzione".

Respira la conoscenza dell'Anima. Che ti spalanca la semplicità del vero e ti unisce attraverso le tue radici profonde.

Permetti ad ogni situazione di essere vista e elaborata nella tua mente. Ogni situazione ha bisogno di fare il suo spazio e tutti prendono una sua forma. A volte ci sembra di non riuscire a compiere determinati passi o di non arrivare a sufficienza, mentre con la tranquillità tutto si risolve nel migliore dei modi.

La Terra si prende cura di noi nei minimi particolari.
