Our well-known children's nature guides: this time, the new volume helps identify garden birds. Each species is presented with an illustration. A practical colour code which shows the size of the birds guarantees easy orientation within the book. Additionally, the titles are interactive: children can find many inspirations for activities outside in nature, for example building a bird house, making bird food, or creating a bird-friendly garden. The practical cover flaps offer many observation tips and a clock about singing birds.

Die drei ???

Meet The Three ??? – an investigative team of 3 boys: Justus, Peter, and Bob.

Set in Rocky Beach, Southern California, they solve mysterious and exciting cases. Often with the help of the local police they find a solution, when no one else can. Author Robert Arthur created the series in the US in the 1960's under the editorship of Alfred Hitchcock.

While the series came to an end in the US after only 50 volumes we in Germany decided to continue with the brand and thus started one of the biggest success stories in German children's literature...

To this day we publish 6 volumes each year, as well as special editions, and calendars. Together with the ever-present audio dramas by Sony it has become a #1 top of mind brand.
