Power For Brain And Nerves

Does your memory seem fuzzy at times? Do you have difficulty remembering faces, facts, dates, or numbers? Do you experience memory lapses when your mind seems to be blank? The cause could be traced to a nutritional deficiency.

Lecithin is a fat-like substance known as phospholipids and is an excellent source of the B vitamins choline and inositol. Cell membranes, which allow nutrients to leave or enter a cell, are largely composed of lecithin.

This book shows that the use of lecithin is important in helping regenerate and revive sluggish brain cells and that they can make a significant contribution to mental fitness for healthy aging.

Lutein

Publication Date: April, 2010

Author: Dr. Anja Schemionek

Pages: 64

Imprint: Lebensbaum

Vitamins For Your Eyes

Lutein, nicknamed “the eye vitamin” is a type of carotenoid antioxidant that is most well-known for protecting eye health. Just like many other types of antioxidants, lutein is found in brightly colored foods like fruits and vegetables, especially leafy greens and types that are deep orange or yellow.

Along with another vision-boosting antioxidant called zeaxanthin, lutein is abundant in anti-inflammatory, cancer-fighting foods including kale, broccoli and many other green vegetables, eggs yolks and citrus fruits — all of which help protect the eyes from oxidative stress.

Even in people who have existing eye damage, including plenty of lutein in their diet can help stop the condition from progressing and further damaging vision.

Reading this book you will learn how to use Lutein.

With Natural Hormones From Plants

Women going through menopause often look for ways to relieve their symptoms themselves or manage them better, and they are often faced with this question: Is a hormone replacement therapy with synthetic sex hormones suitable for dealing with heat distress, sleep disturbances or mood fluctuations?

More and more women are critically opposed to taking these artificially manufactured substances or may not take them for medical reasons.

This book presents as natural alternative the treatment with plant hormones such as isoflavones. Because these estrogens of plant origin regulate the hormonal balance gently and without any side effects.
